

BSK200 MELAN PRO DEPIGMENTING KIT

DESCRIPTION

BSK200 is a depigmenting treatment that combines a shock treatment, through a mask rich in BSK105 active ingredients, with daily maintenance using the BSK104 cream that completes the treatment making it effective. Contains a previous peeling and neutralizing wipes to prepare the skin before treatment.

This depigmenting method completely eliminates the most severe and resistant stains with maximum efficiency and safety. It has a proven effectiveness that gives it a unique and dual action for a short and long-term results.

Reduces unwanted pigmentation (including melasma, sun spots, age spots, post-inflammatory hyperpigmentation, liver spots, and freckles), smoothes skin, is suitable for all skin colors, is fast acting, and has a proven effective process.

PRECAUTIONES

Store between 5°C and 25°C.
